Description: This product represents a "back to the basics" approach to fragrances while continuing to utilize cutting edge delivery technology. The new "Naturals" fragrances are some of our favorite easily recognizable fragrances from everyday life. This breakthrough formulation contains all of the performance one might expect from a dry-type air freshener - but with a twist. Excellent bloom and suspension time, ultra fine particles, no fall out, and no residue for use in textile applications are just some of the attributes. What is truly remarkable about the product is that it achieves the incredibly dry spray without using ozone depleters. In fact, this product contains less than 30% total VOC content! A remarkable spray is not the only exciting thing about this new and improved formulation. The fragrances have been upgraded to ensure superior olfactory notes and tones. But a fantastic fragrance is not the only premium feature you will find. The system quickly neutralizes malodors with industrial and institutional strength even on smoke, decay, urine, feces, solvent, vomit, cooking, animal and more. Also featured is a new light-touch actuator for effortless pinpoint spray control. When used as directed, this advanced formula will effectively freshen without staining or leaving a residue. Although versatile enough to use virtually anywhere, suggested uses include freshening rooms, fabric, drapes, bedspreads, carpet, auto interiors and air conditioners, closets, lockers, chests, shoes, luggage, showers, and garbage receptacles in hotel rooms, restaurants, hospitals, apartments, schools, nurseries, fitness centers, animal clinics and nursing homes.
